income, profit, or capital gains taxes until May 1, 2040, under the Cayman Islands Concessions Law.

The Corporation applies accounting policies that prescribe when to recognize and how to measure the financial statement effects of income tax positions taken or expected to be taken on its income tax returns. These rules require management to evaluate the likelihood that, upon examination by the relevant taxing jurisdictions, those income tax positions would be sustained. Based on that evaluation, the Corporation only recognizes the maximum benefit of each income tax position that is more than 50% likely of being sustained. To the extent that all or a portion of the benefits of an income tax position are not recognized, a liability would be recognized for the unrecognized benefits, along with any interest and penalties that would result from disallowance of the position. Should any such penalties and interest be incurred, they would be recognized as operating expenses.

Based on the results of management's evaluation, no liability is recognized in the accompanying balance sheet for unrecognized income tax positions.

Further, no interest or penalties have been accrued or charged to expense as of April 30, 2022 or 2021 or for the years then ended. The

Corporation's tax returns are subject to possible examination by the taxing authorities. For federal income tax purposes, the tax returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns.

Part III, Line 4 - Bad Debt Expense Footnote to Financial Statements

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with
Customers (Topic 606), which is a new comprehensive revenue recognition
standard. The core principle of the revenue model is that an entity
recognizes revenue to depict the transfer of promised goods or services to
customers in an amount that reflects the consideration to which the entity
expects to be entitled in exchange for those goods or services. The
Corporation adopted ASU No. 2014-09 on May 1, 2020 using the full
retrospective method of transition with practical expedients in FASB ASC
606-10-65-1(f) with no significant impact. The Corporation performed an
analysis of revenue streams and transactions under ASU No. 2014-09. In
particular, for net patient service revenue, the Corporation performed an

that revenue for a given portfolio would not be materially different than
if it were evaluated on a contract-by-contract basis. Upon adoption, the
majority of what was previously classified as provision for bad debts
(representing approximately \$4 million for the year ended April 30, 2020)
and presented as a reduction to net patient service revenue on the
statements of operations and changes in net assets is now treated as a
price concession that reduces the transaction price, which is reported as
net patient service revenue. Changes in credit issues not assessed at the
date of service, are recognized as bad debt expense and included as a
component of operating expenses on the statement of operations and changes
in net assets. The new standard also requires enhanced disclosures related
to the disaggregation of revenue and significant judgments made in
measurement and recognition. The adoption of this guidance did not
materially impact total operating revenues, excess revenues (expenses), or
net assets.

See footnotes 2 and 3 in the attached audited statements for a discussion
of net patient service revenue which includes a discussion of charity care
and uninsured discounts.

Form 990, Part III, Line 4a - First Accomplishment

Chatuge Regional Hospital (CRH), a 501(c)(3) healthcare organization, takes a proactive approach to meet community health needs, the organization's tax-exemption requirements and offers community benefit programs and services which result in a positive impact on community health.

CRH and Chatuge Regional Nursing Home (CRNH) have a vision to be the "first choice" provider of comprehensive medical services in our area. We value our patients and residents and believe they are our most important responsibility. We shall always seek to meet the physical, emotional, educational, and spiritual needs of our patients and their families. We value our medical staff and will seek ways to help them improve professionally and facilitate the practice of medicine. We value our employees and shall treat each other with courtesy, fairness, respect, and integrity. We shall work as a team to do our best to promote our mission and fulfill our vision. We value our community. We are committed to the treatment and care of our patients and promotion of health and wellness in our community. We will confront all ethical and moral health-related issues necessary to enhance the quality of life in our community. We value quality care and will seek to deliver customer-focused, cost efficient services with compassion and caring.

Effective May 1, 2002, CRH was deemed to be a critical access hospital by the Centers for Medicare and Medicaid Services (CMS) and by the Georgia Department of Community Health (DCH).

CRH is the only acute care hospital in Towns County, Georgia. CRH is limited to 25 acute and intensive care medical/surgical beds. These beds

are also used for short-term skilled nursing care. Outpatient services include radiology, laboratory and other diagnostic services, rehabilitation services, and 24/7 emergency medical services.

CRNH is the only nursing facility in the county providing skilled and intermediate levels of long-term care. CRNH is licensed for 112 beds and consistently has a waiting list for admissions. A majority of the residents of CRNH are Medicare and Medicaid beneficiaries.

It is a long-established policy of CRH to provide quality care for its patients regardless of their financial circumstances. Qualification for hospital indigent care is set at 125% of the current Federal Poverty Guidelines and is based on size of the family unit. CRH and CRNH also provide free or reduced cost care to all eligible persons requesting charity care assistance. For emergency medical services, including active labor, no person will be denied care due to an inability to pay for services. CRH and CRNH participate in Medicare, Medicaid, Peachcare, Tricare, and/or other government-sponsored health care programs.

CRH, in conjunction with its sister hospital, Union General Hospital, are the only tax-exempt, non-profit hospitals within the immediate eight-county area of the north central and northeast Georgia mountains. Due to the mountainous terrain and being bounded by the Chattahoochee National Forest and Lake Chatuge, Towns County and its neighboring Clay County, NC, have several very remote communities from which access to medical care can literally be more than an hour away in some cases.

Towns County attracts many visitors for camping, hiking, fishing and hunting. The twisting mountain roads attract bicyclists and motorcyclists throughout the spring, summer and fall seasons. These activities many times result in medical emergencies, some very serious, for which the

emergency department of CRH must be prepared.
 CRH established a family medical practice in Hayesville, NC (Clay County) to help meet the medically underserved in the community. The medical office is staffed with family nurse practitioners and supported by physicians from CRH's emergency department.
